EDITORIAL

KR WINS "GREEN LEAF " For being a caring green entity

Another happy moment for Kochi Refinery to be adjudged winner of *APEX India Green Leaf* award for the various green initiatives in 2019-20 in the Refinery Sector. Technologies adopted and simple acts of conscious greening, have fetched us this recognition. We are elated to share the details of this accolade bestowed on the largest PSU refinery in India.

We also bring you updates from the national campaign on COVID care in addition to the exclusive initiatives at Kochi Refinery. A host of digital innovations were activated in the last month by the newly formed KR digital team and the COVID Tracker Application was activated by KR IS team. The KR Info and Services Portal (KRISP), the new avatar of the PR services portal that was jointly developed by KR Digital and KR IS teams was also launched in October 2020.

In this pre-year-end edition of *JwalaDhwani-Mini* has kept everything in brief with links to full videos and reports on our digital platforms. Enjoy the read and mail us your feedback in the email given on the last page.

Stay connected, stay safe and stay motivated!

Warmly,
Editor

BPCL SIGNS MOU WITH MOP&NG FOR 2020-21

A Memorandum of Understanding (MOU) between Ministry of Petroleum & Natural Gas (MoP&NG) and Bharat Petroleum for the financial year 2020-21, was signed by Mr. Tarun Kapoor, Secretary (MOP&NG) and Mr. K. Padmakar, Chairman & Managing Director, BPCL in October in the presence of senior MoP&NG officials Ms. Usha Suresh, Sr. Advisor, Mr. Navneet Mohan Kothari, Joint Secretary (Marketing), Mr. Sunil Kumar, Joint Secretary (Refineries), Mr. B. N. Reddy (IC) along with Mr. Arun Singh, Director (Marketing), Mr. N. Vijayagopal, Director (Finance) and Mr. M. A. Khan, Executive Director (Corporate Coordination & Development) of BPCL.

DPE REVIEWS BPCL CAPEX PLAN

Mr. Sailesh, Secretary (DPE), reviewed BPCL's capex plan and status of major projects on 31 October 2020 at Mumbai Refinery, in presence of Mr. K. Padmakar, Chairman & Managing Director, Mr. N. Vijayagopal, Director (Finance) and other senior Bharat Petroleum officials. Secretary (DPE) appreciated the efforts of Oil Marketing Companies for maintaining supplies of petroleum products during the lockdown.

UNIT HEAD OF KOCHI REFINERY TAKES CHARGE

Mr. Subramoni Iyer MR takes over as the Unit Head of BPCL Kochi Refinery from 31 October 2020 on the superannuation of Mr. Murali Madhavan P, ED(Kochi Refinery). As the new Chief General Manager (In-charge) - Kochi Refinery, Mr.Iyer leads the largest Public Sector Refinery in the country.

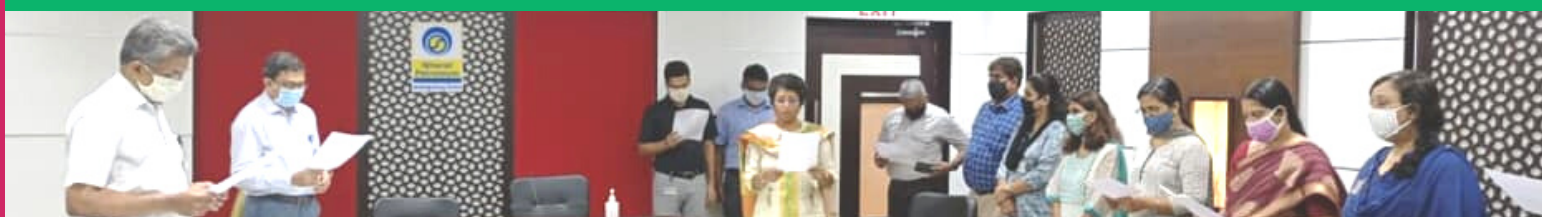

Prior to this, Mr. Iyer was Chief General Manager (Refinery Operations), heading the Operations of Kochi Refinery. Mr. Iyer hails from Mankombu (Alappuzha) in Kerala. A chemical engineer from the Government College of Engineering, Thrissur, Mr Iyer began his career in the erstwhile Cochin Refineries Limited in 1989. He also has a management degree from SP Jain Institute of Management, Mumbai. He has worked in various departments of Kochi Refinery including Process, Operations and commissioning of various projects of Kochi Refinery.

DIRECTOR (FINANCE) INAUGURATES PVG BLOWER OF ACRYLATES UNIT

[CLICK HERE TO KNOW MORE ABOUT THE FACILITY](#)

Mr. N Vijayagopal, Director (Finance), inaugurated the PVG blower of the Acrylates unit of the Propylene Derivative Petrochemical Project (PDPP) at #KochiRefinery on 23 October 2020. The commendable effort by Team PDPP to commission the blowers with minimal remote support from OEM was highly appreciated by Director (Finance). Mr. Subramoni Iyer M R CGM (Refinery Operations), Mr. Suresh John, CGM (Engineering, Projects & Contracts Management), Mr. Sreeram AN, CGM (Project Technical & Petrochemicals) and Mr. K Ravi, GM (Reliability) and the project team were present on the occasion.

VAW 2020

Mr. Kurian P Alapatt, CGM(HR) leads the Vigilance Awareness Pledge at Kochi Refinery. Pledge was taken across all locations. Sensitisation programmes were organized during 27 Oct to 02 Nov 2020.

CONGRATULATIONS KOCHI REFINERY

- DIGITALIZATION IN ENVIRONMENT - REFINERY WIDE EMISSION MODEL AND ONLINE BASED HAZARDOUS MATERIAL AND WASTE MANAGEMENT SYSTEM
- ENVIRONMENT TREASURES AT KOCHI REFINERY
- BEST ENVIRONMENTAL PRACTICES
- GREEN INITIATIVES AT KOCHI REFINERY - CLEAN TECHNOLOGY AND ECOLOGY

ANOTHER KR BEAUTY SPOT

Care for environment being top priority and with the present cost crunch, KR Maintenance Dept went for an innovative low-cost aesthetic facelift for the IREP "Temple pond" this time. Dismantled rubble and paver tiles were used for pitching and landscape beautification. Scrap flanges, drums and hoses were used to develop arches and fountains, while gratings were used for fabrication of benches. More than 100 trees have been planted along the pond side. Under the leadership of Mr. Giridharan S, GM (Maint) the project was meticulously completed by Mr. Raghavan K, DGM (Maint) along with Ms. Anu Appukuttan, Manager (Maint) and team. The creativity and innovation exhibited by the team has given a mystic charm to the Temple Pond area that is now another green beauty spot inside Kochi Refinery.

VIRTUAL POOJA

Navaratri Puja was broadcast live by the Maintenance team this year to all employees. Keeping to the ongoing protocols, crowding was totally avoided and the Refinery team prayed together for good tidings ahead.

MSBP PRE-COMMISSIONING MILESTONES

As part of the pre commissioning activities, the first cooling water pump at MSBP was activated by Mr. Murali Madhavan P, ED (Kochi Refinery) in the presence of senior management officials, MSBP Projects team, commissioning team and consultants, Engineers India Ltd on 28 October 2020

The cooling water system of MSBP consists of 3 RCC cooling tower cell of 3200 m³/hr each (Make: Paharpur Cooling Towers Ltd) , 3 pump of capacity 3200 m³/hr each (Make: Flowmore Limited) and allied piping network. The mechanical completion of the system was achieved and pre commissioning activities were being carried out. Motor Spirit Block Project (MSBP) is being constructed for the BSVI implementation as part of the auto fuel policy of Govt. of India. These units are envisaged for producing Motor Spirit product from the Refinery conforming to BS-VI specifications.

This marks the crossing of a major milestone in the pre-commissioning activities of MSBP and will provide impetus to the many more milestones on the path forward to MSBP commissioning.

TRIPLE HEALTH & HAPPINESS INITIATIVES

CLICK HERE TO KNOW MORE ABOUT THE FACILITIES

Triple health & happiness initiatives were launched at Kochi Refinery by Mr. P Murali Madhavan, ED(KR). The facilities were launched at the Akshaya Bharat Multi Utility Complex in the presence of Mr. M R Subramoni Iyer, CGM (Refinery Operations), CGM(HR) Mr. Kurian P Alapatt, GM(PR&ADMN), Mr. George Thomas, DGM (Medical Services) Dr. Francis Placidus K G, celebrated International Sports persons and officials from HR and other departments on 28 October 2020. The new facilities include a multi gym, creche and Jan Aushadi in the enhanced store.

CFLTC AT KOCHI REFINERY

With a vision to extend the best medical care to BPCL employees during the present crisis, the COVID First Line Treatment Centre (CFLTC) has been set up by Kochi Refinery based on the protocol of Health Department and the District Administration. The CFLTC will act as a primary level healthcare centre for treating all mild and moderate symptomatic persons under surveillance. A dedicated medical team of Sree Sudheendra Medical Mission has been engaged round the clock and all Covid protocol is applicable at the Centre.

The facility is open to BPCL Employees in Kochi, their spouse and dependent children. Presently, the CFLTC at Jwalagiri has twenty beds. The centre consists of separate male and female wards that has well-ventilated dormitories with individual compartments, clean dining facilities, wash rooms, entertainment areas and round the clock security. There are separate doffing and donning area for health workers and an office with complete online communication facilities. This full-fledged centre has been set up by converting the Ambedkhar Block at the old CR School Campus. The facility inaugurated by Mr. P Murali Madhavan, ED (KR) at Jwalagiri has been operational from 2nd October 2020.

CLICK HERE TO KNOW MORE ABOUT THE FACILITY

KR COVID TRACKER

COVID19 Tracker Application developed by KR-IS in association with KR-OHC is to help managing data of COVID19 patients and primary contacts among employee and contractors in BPCL Kochi Refinery. Mr. Murali Madhavan, ED(KR) launched the application in the presence of Mr. MRS Iyer, CGM(Ops), Mr. Kurian P Alapatt, CGM(HR), Mr. Suresh John, CGM (Engg, Orojcts & Contracts), Mr R Venu, DGM(IS), Dr. Francis Placidus, DGM (Medical Services) and the IS team on 28 October 2020.

The application has the following features:

- Update staff details and health related information
- Report patients among KR Staff & family, CISF Staff, Contractors, Canteen Staff, Cooperative & Consumer Society Staff etc.
- Contact reporting and classification of contacts
- Daily status updating of Primary Contacts by Department Facilitators & Approval by OHC
- Dashboard that visually tracks, analyzes and displays key data points for monitoring

KRISP

KR INFO & SERVICES PORTAL

INTEGRATED PR, CSR, ADMIN, ESTATES & SECURITY SERVICES PORTAL OF KOCHI REFINERY

LAUNCHED BY SHRI MURALI MADHAVAN, EXECUTIVE DIRECTOR (KR), 29 OCT 2020

LOGON

Kochi Refinery Info & Services Portal (KRISP), a joint initiative of PR & Admin, KR Digital and IS team, was launched by Mr. Murali Madhavan P, ED Kochi Refinery) in the presence of Mr. Kurian P Alapatt, CGM (HR), Mr. George Thomas, GM (PR & Admin), Mr. R Venu DGM (IS) and Mr. Sridhar K, GM(Digital) on 29 October 2020. The new avatar of the PR Services Portal, is as an integrated portal for all services within the gamut of PR & Admin.

About KRISP

The integrated portal KRISP caters as an information hub and service portal. The info-hub is managed through **Media room & Document library** for Video, Photos, Documentaries & Brand and **KR Broadcasts & News room** for Refinery updates. **Security Link** section gives access to the entry management portals for employees and material. The **COVID, CSR & CRM** dashboards are housed in KRISP as they are managed by respective groups in the PR team. While the admin links for the team has been pooled under one umbrella, and each of these portals also have individual access points from the mother page in KR & ME. The digital content created through KR event requests will be archived in respective libraries and can be accessed for download through BPCL LAN only. For more details pls call 1471.

Services on KRISP

Logon to **KRISP** from KR & ME under HR Applications and click on **SEND REQUEST** to generate service requests for Photography, Videography, Banners, Broadcasts, Catering, Taxi, Hotel reservations and Estates Services from the respective tabs in KRISP portal. Requests have to be placed and approved at-least 24 hours in advance for regular in-house events or services and in advance for major/external events and services if outsourcing is involved. Specific details for each service is detailed on KRISP.

PR Services

Content building and branding are two key areas catered by PR services on KRISP. Requests for photography, videography, branding and displays can be selected from the drop-down menu. All details have to be filled and requests have to be approved by Line Manager. A verification email with Booking ID will be sent to requestor after approval of line manager and site admin. Cancellation can be done up to 4 hours before event. In case of designs and displays, final approved artwork has to be submitted for internal records. Copies of approvals have to be submitted for internal records and billing. Post event, a brief

note of the event has to be sent to PR by the coordinator for updates in journal, social media and other digital broadcasts. For photography /videography details please contact 1478 and for banners/displays services pls call 1456.

Admin Services

A host of services are catered by the Admin team. The two services now activated on KRISP are **Canteen Services** and **Taxi Services**. All request for these services have to be placed well in advance for delivery as per Booking ID created with approval of line manager/HOD as applicable. All requests for Canteen services will now flow through KRISP.

For official taxi services, the requests have to be placed at-least 24 hours in advance with specific details of visit, location and purpose. Individual bills/trip note have to be certified by User immediately after trip and submitted to Admin Office (Room No: 23). Cancellation can be done up to 3 hours before trip-time. For more details please contact 1458.

Estates Service

The entire gamut of services offered by Estates has been brought under Estates Services on KRISP. The requests have to be placed at-least 24 hours in advance for major issues and employees can raise a request for self or colleague. **Service locations** covered are : KR Admin building, Annexe, Canteen, OHC, AMAS, Akshya Bharat, Ernakulam Township, Jwalagiri colony, Easland Enclave, CR School Vandipetta, NM &M Tower Vandipetta, CISF Colony, BPCL Kudanoor, STF and Marketing office. **Service areas** include: Electrical Maintenance , Air Conditioning services, Civil and Others. We have also included an option for sharing images/attachments for specific details of the complaint. On successful booking of request, the verification email with Booking ID will be sent to the email listed against badge number. For more details please contact 1431.

Hospitality Services

Going on-stream shortly on KRISP is Hospitality services for reservations at hotels / resorts in and around Ernakulam / Trivandrum. Services include Official meetings, banquets, accommodation for company officials and company guests. All requests have to be approved by KR approving authority for generating the Booking ID. For more details contact 1470.

SPECIAL MOVIE
DEDICATED TO
THIS GRACEFUL
MAN OF ACTION

The petroleum industry is going through a phase of disruption. Refining margins have touched rock bottom because of unfavourable cracks for major products like Diesel and Motor Spirit. This is the time for refiners to reassess and reinvent their competencies to minimize operating expenditure, maximize production of valuable products and optimize on unit operations. We need to be continuously updated, on technological improvements and developments across the globe and implement them in minimum time.

Safety, especially contractor safety has been a weak link in our Refinery over the past few years. Focus on this needs to be improved and we cannot afford to have accidents resulting in lost time. We need to be continuously vigilant while issuing permits and executing jobs fully complying with prescribed Standard Operating Procedures (SOPs).

Our neighbourhood is very sensitive and are very clear that they need not accommodate any environmental pollution breaches that can happen during our day to day operations. We need to ensure that every operation that we initiate has the potential to impact the environment and we need to be conscious about it," shares Murali Madhavan P, who is superannuating as Executive Director of Kochi Refinery, where he had a clear hand in its transformation into the largest PSU Refinery in India

Executive Director and Head of Kochi Refinery, **Murali Madhavan P** bids adieu to Bharat Petroleum Corporation Limited as he retires on 31 October 2020. He had taken over as the unit head on 1 January 2020. In his tenure as Head of Kochi Refinery, he had to meet the challenges of operating the Refinery during the Covid 19 Pandemic when the demand for petroleum products except for LPG had come down drastically. Production was optimized and all Covid 19 Protocols were put in place. Starting from Unlock 1, Kochi Refinery made use of the lean period to carry out shutdown maintenance jobs of its various units. At a time when international travels were not allowed, the shutdowns were made possible innovatively using remote monitoring of foreign licensors through digital technology for the first time. During Mr. Murali's tenure, the Company took up large number of CSR Projects to combat Covid 19 Pandemic including ventilators to Government Hospitals, food and sanitization kits to the poor, assistance for on-line classes and free-oxygen for Government Hospitals.

Joining Kochi Refinery in 1985, Murali Madhavan had a clear hand in its transformation into the largest PSU Refinery in India. He began his journey at the Refinery with the Projects team which was then implementing the World Bank funded Energy Conservation Projects. Thereafter he was part of the Aromatic Recovery and CDU 2 projects. He had a stint in Process and Energy & Environment Departments before moving to Marketing of specialized Refinery Products .

He then moved on to Project Technical and was closely involved in conceptualization of the major Expansion Project of BPCL at Kochi – the Integrated Refinery Expansion Project (IREP) and was later selected to Head the IREP Commissioning Team. IREP transformed Kochi Refinery to make it the largest PSU Refinery in the country and *future-ready*. He took over as Executive Director (Refinery Operations) in 2019 and as Executive Director of Kochi Refinery, in January, 2020.

He did his primary education at Lady Shankaran Nair Memorial Convent School and graduated from Trichur Engineering College, the only engineering institution in the state offering Chemical Engineering at that point of time. Immediately after graduation he had a brief stint in IOC Marketing Division and then he stepped into Kochi Refinery. Most of his seniors were seniors in the Refinery also and initially, life in the Refinery felt like an extension of college to him. He fulfilled his dream of post graduate degree in Management from the prestigious SP Jain Institute of Management & Research (SPJIMR) as part of BPCL executive development programme.

He is married to Sunanda, a dedicated academician and they are blessed with two children, Govind and Lakshmi. Govind, has done his post-graduation in Chemical Engineering from IIT, Bombay, and is working at Tokyo Engineering Corporation, Japan, as a Process Engineer. He is an accomplished musician. He is married to Bhadra, who is also a Chemical Engineer doing her PhD in Chemical Engineering at IIT, Madras. Lakshmi, is pursuing MBBS (2nd year). Mr.Murali Madhavan hails from Ottapalam of Palakkad District in Kerala and has settled in Tripunithura. *JwalaDhwani* wishes Mr.Murali Madhavan and family all the very best as he continues to ride the winds of change.

DR FRANCIS SAYS GOODBYE

Dr. K G Francis Placidus bids goodbye after an exciting service of more than 25 years of service at Kochi and Mumbai Refineries of Bharat Petroleum.

Before joining Kochi Refinery, he worked with VKM Hospital, Tripunithura and Varma Medical Clinic, Tripunithura for a few years and also had a clinic of his own at Bolgatty Island in Ernakulam. Dr. Francis joined Kochi Refinery in December 1994 as Medical Officer and is superannuating from service as the Dy. General Manager (Medical Services).

A dedicated medical practitioner, he found service hectic, enjoyable and productive in the last 25 years in this Fortune 500 Company. "Delivering effective medical services during the COVID-19 pandemic at Kochi Refinery and Mumbai Refinery has been the greatest learning experience in my entire career in the medical field," he recalls.

He is thankful to the Company for all the opportunities received that has helped him become more mature in taking the right decisions, being safety conscious and also acceptable to the outside world. Without hesitation he says that "All my achievements were due to the co-operation and goodwill of friends and associates in Kochi and Mumbai Refineries. The company has also moulded me in such a way that I have come out of my personal cocoon and inculcated the habit of safety consciousness in whatever I do." He conveys sincere gratitude to all in Cochin Refineries School for imparting best education to his children and thank all his colleagues for the love, co-operation and support given to him during his journey through this wonderful organisation both at KR and at Mumbai Refinery.

His wife Sherly and he are blessed with two children. Their elder daughter Elizabeth Nayana is working with Cognizant Technology Solutions at Inforpark, Kakkanad, Ernakulam. She is married to Rony, who is doing construction business. They are blessed with 2 children. Their younger son Nevin Francis is working with Infosys At Technopark, Trivandrum. Dr. Francis plans to engage in farming with exotic fruit trees, livestock management and fish farming post retirement. Best wishes from *JwalaDhwani*.

ANCY BIDS ADIEU

Ancy Johnson bids adieu to BPCL-Kochi Refinery, after an association close to two decades. Ancy started her career in Balmer Lawrie & Co. Ltd. and thereafter in Cochin Refineries Balmer Lawrie Ltd.(CRBL) which was later merged with Kochi Refinery.

She joined as Personnel Officer in HR Dept and is superannuating as Senior Manager. A soft-spoken, sociable and a pleasant person, Ancy feels that it had been a very fruitful and enriching journey in the largest Oil Refinery among Public Sector Refineries. She has worked in various functions in HR namely ESI/PF, HRD, Benefits Administration and eventually in Public Relations, handling CSR, that gave her the most of job satisfaction.

Additionally, both external and internal training programmes complemented to fulfil job-related responsibilities and to update professionally. Ancy is extremely grateful to the Company for the good exposure to fine-tune her skills and talents.

Slow is the oak to grow, but once grown it's the sturdiest, is what describes her friendship. Transformation from a regionally centralized independent company to a large corporation has brought in several changes to Kochi Refinery shares Ancy.

Spreading the Quality Circle movement in the company, implementing a record number of CSR projects during 2019-'20 worth Rs.36 crores and continually receiving Annual CSR Excellence awards from National Institute of Personnel Management, Rotary Club and Kerala Management Association are some of the moments she will always cherish. She thanks BPCL Management, her superiors, colleagues and friends for their guidance and support received during her eventful journey with Kochi Refinery.

Ancy's husband, Johnson and their only daughter, Chitra, are practicing Lawyers in the Kerala High Court. Basically from an agricultural background, Ancy plans to engage in farming at her home town Piravom and also wish to travel with her family, post retirement. Best wishes from *JwalaDhwani*

Address : Varickasseril House, Pallikkavu Road, Piravom-686664

THAT MORE MAY SEE

On 14 October Jayachandran N G, General Craftsman of our Maintenance Dept, lost his father, Gopinathan Nair who was 83 years old. Having heard of the incident, former employee, M Ramkumar, requested if he would be willing to donate his father's eyes so that other less fortunate may see the world.

In spite of the engulfing sorrow and gloom, Jayachandran decided to act quickly. From that moment things gained a wonderful momentum as time was limited. The demise took place at 08:30 AM and the last rites was scheduled for 2.00pm in the afternoon. Ramkumar, a blind person himself, who has been actively involved in social activities and support for the blind, helped Jayachandran and coordinated with the medical team and the team directed by Dr. Anil Radhakrishnan, Head of Ophthalmology, Amritha institute of Medical Science freeze-boxed the two precious eye corneas safely.

The National Federation of the Blind observes 'White Cane Awareness Day' every year on October 15. It is pure coincidence that on the white cane day of the year 2020, one of the donated eye was successfully transplanted in a 14 year old boy, who was living with darkness till the previous day. And on the very next day, the other eye also was implanted in a 26 year old lady.

Ramkumar who is totally blind took VRS from the HR Dept recently. Jayachandran also has a minor visual impairment, however he is a dedicated hard core technician. The genuine and timely act of kindness by Jayachandran and Ramkumar, has helped in removing the 'white canes' of two blind persons. Truly they have given a life enriching gift to two lives. They have also shown us that age is not a limiting factor for eye donation, as there are numerous needy persons including youngsters in the mission for vision. Let's open our eyes to help others see. Lead kindly light...
